

All Steam

For Economical Light to Medium Steam Cleaning

Safe on Ferrous and Non-ferrous metals.

Safe on personnel, clothes, equipment, metals, paints and woods. Non-toxic and odorless. Ideal for steam cleaning in contained areas.

Effective with all types of steam cleaning equipment for light to medium cleaning jobs in plants, garages, transportation industries, markets and food packing plants.

Concentrations can vary from 20 parts water to 1 part All Steam, to 50 parts All Steam and 50 parts water.

A NEW COMPLETELY SAFE LIQUID CLEANER:

All Steam needs no prep dissolving. Just pour into mixing tank and add required amount of water. **All Steam** can be used safely with all types of steam cleaning equipment and on all types of metals.

Fast penetration with immediate emulsification – provides excellent wetting action and rinsability.

Built-in water conditioning properties assure superior performance in hardest water by lubricating coils, preventing adhesive or soils and gumming or check valves. No evidence of precipitation is found.

ONE SOLUTION FOR MANY DIFFERENT JOBS

All Steam can be used safely where many types of metal are to be cleaned and where only one piece of cleaning equipment is used.

Contains no caustic.
