

CAL X

CAL X is a liquid steam cleaning material designed with economy and convenience in mind. CAL X is the only material that can do the job of four ordinary cleaners. It does light, medium, heavy-duty and extra heavy-duty jobs, just by varying the amounts used.

CAL X is completely soluble, greatly reducing breakdowns and steam cleaner maintenance costs, and eliminates wasted material due to damp powders.

CAL X will remove road scum, oil, grease and even burned on grease, leaving the surface with no residue.

Properties:	Emulsification:	Immediate
	Toxicity:	Non-Toxic
	Causticity:	Limited
	pH – 2% solution:	12.85
	Wetting Ability:	Excellent
	Foaming:	Yes
	Odor:	Slight

Safety on Metals:	Aluminum:	Not safe, however etches evenly
	Brass:	Safe
	Copper:	Safe
	Steel:	Safe
	Galvanized:	Not safe
	Tin:	Not safe
	Magnesium:	Safe

Uses: CAL X is for heavy-duty steam cleaning. It should not be used on soft metals, or poor painted surfaces.

CAL X is for heavy-duty steam cleaning of heavy equipment and machinery or wherever fast cleaning of heavily encrusted greasy soil is needed.

Using concentrations: Steam Cleaning – 6 to 8 oz. per gallon of water, depending on heaviness of soil deposit.
