

KLEEN ALL SPRAY "A"

An effective concentrate for high-pressure washers

Kleen Spray "A"

A powdered mild alkaline detergent designed for use, in high pressure washers 400 lb/p.s.i. upward, where the cleaning of painted surfaces, trucks, automobiles, and equipment is needed.

Kleen Spray "A"

In combination with pressure washer will remove road films, smuts, oils and dirt without hand scrubbing. Kleen spray "A" rinses with cold water and leaves a bright shining surface with NO streaking even when used in sunlight. Even if not rinsed right after use and has dried, it still can be rinsed sometime later.

Kleen Spray "A"

Being a concentrate, needs only to be at ½ ounce per gallon of water in most washers.

Protected surface:

For the added protection and the beautiful surface luster of a waxed finish use CAL 777 right in solution with Kleen Spray "A".

CAL 777:

Gives painted surfaces the siliconized protection from weather plus a luxurious sheen. After CAL 777 treatment, just watch the water bead off.
