

LIQUI SPRAY

Heavy duty liquid car washing compound

Principle use:

A universal heavy-duty car wash formulation designed to provide peak performance in all car washing systems – automatic, coin-op, pressure or manual. Non-toxic. Non-ammoniated.

Description:

A blend of surface active agents, detergents, builders, water softeners and soil suspending agents. Product prevents re-depositing of soil and rinses freely without water spotting. Instantly and completely soluble in water. Economical use-dilutions.
